4. Performance in academics

This is the central and core business why we all strive and wake up early to bring our learners to school. Let us ensure that we get involved in ensuring that our children perform well. Let us positively and candidly support our children and teachers to ensure that the performance of our champions is good. Any observation that we make that may hinder good performance be forwarded to school for remedy.

5. Communication

This is a very powerful tool that when used appropriately can build an organization like ours quite immensely. How I pray that we may procedurally air our issues well by following the laid down procedures. If for example your son fails to come home with homework, it may not be for all the learners and therefore addressing this on class wall may not be the best. Kindly contact the class teacher to find out why that is so for clarification and assistance because at it may be the individual child's fault.

6. Discipline and good grooming

Discipline is a very important factor when it comes to good performance. As a school we shall endeavor to ensure that the right morals that are acceptable are inculcated in our children. Kindly support us in making this a reality. Without discipline and good grooming we cannot achieve our best as a school. Kindly take note that any persistent deviant behavior from any learner won't be tolerated at all come next term. Boys have to shave their hair and equally girls have to plait their hair as prescribed in our rules and regulations.

7. Third Term Program

The final term of the academic year 2023 will commence on 29th August 2023 and will run up to 3rd November 2023. This will purely be an academic term devoid of many other co-curricular activities. We plead for your support to enable learners be in class throughout since it will be a short and proper time management must be adhered to optimize in the academic matters. We shall share the calendar of events as soon as it is ready.
