THE 2023 NYALI SCHOOL SPORTS DAY

Saturday 16th Sept 2023: The Nyali School annual sports day was successfully held and the performance exhibited by the learners was beyond the obvious. Learners displayed the epitome of scintillating and exhilarating talent show. Parents and Club members were not left out as they put up spirited and marvelous performance against the staff. The staff postponed their victory against the parents until next sports day which made parents to win all the events by a whisker. The tug-of-war electrified the event and chants of supporters from both divides rent the air. The Nyali school will continue nurturing the different talents of our lovely children.

GRADE 4 TIE AND DYE PROJECT

Wednesday 20th September 2023: Grade 4 learners did a Tie and Dye project where the main activity was dyeing a clean white cotton t-shirt using the tie and dye technique. This is an authentic task in Art and Craft under the strand: Design, mixed media and Technology and sub-strand Tie and Dye. The learners enjoyed this activity that was facilitated by Mr. Michael Onyimbo.

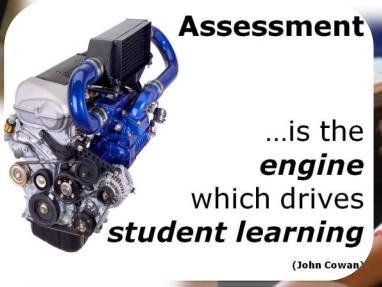

MID TERM III ASSESSMENTS

We are exposing our learners to different external and internal exams to make them abreast with different examining and testing techniques. We believe that this robust initiative coupled with intensive and extensive classroom engagements, .our learners will be well prepared and versed to tackle even national assessments with ease. These assessments started on Monday and have been going on until today. The assessments cut across the entire school right from Pre-Primary, JSS to Std. 8.

KNOWLEDGE CORNER

Meaning of Assessments

These might include **standardized tests, end of unit tests, purchased assessments or explicitly designed portfolio tasks**. Informal assessments (or formative assessments) happen in the classroom every day, as teachers review students' work, ask questions or observe students in action.

BREAK TIME AT THE NYALI SCHOOL

The best pharmacy is the kitchen. We are intentionally serving our learners with healthy meals and to their fill. Our cafeteria team led by our chef de parties are determined, dedicated and devoted to their core mandate of preparing sumptuous and delicious meals to the learner. We endeavor to take our even services a notch higher.

DAYCARE FUN DAY

Friday 22nd September 2023: "There is something magical about watching learners discover the world around them" In their world every moment is an opportunity for growth and learning. The daycare learners had a fun filled day at the Best water park in Kenya; The Wild Waters Park. An epic adventure it was for them.
