Dear Parents,

**RE: THE NYALI SCHOOL COMMUNICATION APP**

The Nyali School is trying to operationalize an online platform where parents can access a variety of information about their children from a central application.

The app provides parents with access to examination results, notices, timetable, publications, notifications and performance progress curves among other features.

To access this information, parents are required to download the App from Google Play Store for android devices. Login in using the child's username and password (provided at school)

This app will be used to send frequent alerts to parents about the school activities and academic progress of the learners.

The username and password will be issued to the learners when they report back to school.

May God bless and protect you in a special way.
