RE: ZOOM MEETING WITH KICD STAFF

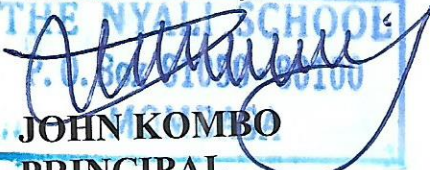

As pointed out earlier last week, we are set to have an interactive meeting with KICD staff who midwived this CBC curriculum that has become the talk of every household due to the challenges therein. We believe that after they have shed light on all the grey areas, we should be able to effectively chart the way forward for our champions because we do believe that after this discussion we shall be more informed than ever before.

After this, we shall organize for two academic clinics for the three classes where parents will meet individual learning areas' facilitators to discuss the progress of your child in details. I am certain that at the end of these two meetings, proper diagnosis and remedy for areas of your concern will have been resolved. This is necessary to enable the facilitators finish strong.

Kindly remember that our Saturday ZOOM meeting begins at 9:00am and the link to join will be sent 30 minutes before the commencement of the meeting.

It is my humble request that ALL parents to our pioneer class will attend.

Yours faithfully,

JOHN KOMBO
