10th November 2021

Grade 5 Parents

The 2022 CBC Pioneer Candidates,

The Mombasa Parents Club

Dear Parent/Guardian,

RE: GRADE 5 ACADEMIC CLINIC.

The above stated exercise is scheduled to take place on Saturday the 13th day of November 2021 at the school premises from 8:00 am. The entire exercise is designed in such a way that by the end of it, all proper diagnosis would have been done and the best remedy prescribed for any kind of academic illness that may be identified in the course of your interaction with various facilitators that handle your child in every subject.

Our key objective honourable parents as we enter our final lap of this marathon is to provide the correct professional doze to every champion in such a manner that they will all be sound and very healthy academically as parents provide reinforcement services at home.

You will come to school, take your child who will have arrived earlier either by school bus (only for this special day) or dropped earlier by private means, and then proceed from one teacher to another until you round up all the subject teachers. You will also get the opportunity to peruse all the exercise books in all subjects and discuss in-depth the progress of your child with individual subject teachers.

Hon. Parents, be open enough even as you share with the teachers the general mannerism of the champions both at home and school. Do the same for their hidden talents and career prospects.

After you have discussed with all the learning area teachers you will be free to leave with your child.

Our highly esteemed parents, this meeting is so important that you cannot afford to miss it. At the end of the entire exercise, you will get to understand your child better and this will enhance the excellent performance of the learners.

God bless you abundantly as we pray for these champions and as we plan to attend this very important meeting. See you then.

Yours faithfully,

JOHN KOMBO
