RE: THE STATEHOUSE VISIT.

In reference to the subject, allow me to state as follows:

1. The Nyali School remains the National drama champions in Kenya 2023. This is very clear and cannot be disputed by anyone.
2. We were all anticipating and following very closely the visit to Statehouse for the State concert and we made several calls even prior to the setting of the date to ensure that we were informed about everything on the same.
3. We learnt about the Statehouse concert date through another school, meaning we were not invited to attend, reason we were not given.
4. We made several frantic attempts to find out why we were not given the invitation but the reason has not come forth up to this moment. The school was even willing to finance the trip to Nairobi for the concert but we have no control over Statehouse programmes and protocols.
5. We shall do a formal complaint letter to the Education Office to register our disappointment without souring our relationship with the Government because after all we need the Government to discharge our mandate as a school.
6. The chairman and the Board of Management of The Nyali School did not refuse to fund the learners to Nairobi as some parents are claiming. This was a matter that was out of our control.

Dear members, we call for your patience even as we try to get the reason why we were left out. Keep on praying for our champions so that they don't get discouraged as a result of this happening.

Kind regards.

Yours faithfully,

**For and on behalf of:
The Mombasa Parents Club**

**Benjamin Gitonga
CLUB CHAIRMAN.**
